EDUCATION

Master of Computer Applications (CGPA - 8.95) Indira Gandhi Delhi Technical University for Women	Aug 2024 - Present
Bachelor of Science (CGPA - 8.57) Delhi University	Aug 2021 - Jun 2024
CBSE Board - Class XII (Percentage - 92.60%) Balwantray Mehta Vidya Bhawan, GK-II, New Delhi	Apr 2020 - Mar 2021
CBSE Board - Class X (Percentage - 94.40%) Balwantray Mehta Vidya Bhawan, GK-II, New Delhi	Apr 2018 - Mar 2019

WORK EXPERIENCE

Zaalima Development Data Science and Machine Learning Intern	Apr 2025 - Jun 2025 <i>Remote</i>
- Engineered “AI DataForge,” a full-scale AI-driven platform enabling efficient ingestion, preprocessing, training, and deployment of ML models across multiple data formats (CSV, JSON, SQL, NoSQL) and 10+ algorithm types—cutting model lifecycle time by 50% using RESTful Flask-based APIs. - Automated model optimization using GridSearch, RandomizedSearch, and BayesianSearch, boosting F1-scores by up to 18% across 100+ tracked experiments.	

PROJECTS

Skinwise: Your Agentic AI Skincare Assistant (Link) <i>PhiData, Groq, Flask, React</i>	May 2025 - Jun 2025
- Created an interactive, full-stack AI skincare assistant using multi-agent orchestration (PhiData + Groq), tailored to answer questions regarding skincare, handling over 10,000 characters of data per query. - Automated query classification and agent routing across Wikipedia, SerpAPI, and web crawlers to provide tailored skincare insights with 95% accuracy in test prompts. - Utilized React to create a sleek and responsive UI along with a Flask back-end, enabling real-time interaction of 3+ AI agents.	
ToxNet: A Multi-layer Network approach to Toxicity Analysis (Link) <i>Graph Neural Network, PyTorch, Transformers, NLP</i>	Oct 2023 - Apr 2024
- Developed a model technique for hate speech detection in tweets using a multi-layer approach to Graph Neural Networks, which outperforms pre-existing models by 60% in terms of F1 scores. - Furthermore, constructed an augmentation technique to balance standard datasets using the pre-trained GPT-2 model, thus increasing F1 scores by 15-20%.	
Drowsy Driver Detection (Link) <i>CNN, Computer Vision, HAAR Cascade Classifier, OpenCV</i>	May 2024 - Jun 2024
- Integrated HAAR Cascade Classifier for precise eye and facial feature segmentation with a deep learning CNN reducing false positives by 12%. - Utilized Keras-Tuner to optimize the CNN model and obtained an accuracy score of 88%.	

RESEARCH PUBLICATIONS

Rashid, A., Kumar, S., Saxena, R., "ToxNet: A Multi-layer Network approach to Toxicity Analysis using Graph Neural Networks." Presented at the Sixth International Conference on Soft Computing and its Engineering Applications (2024). ([Read Paper](#))

TECHNICAL SKILLS

Languages	C, C++, Python
Libraries and Developer tools	Git, GitHub, VSCode, Jupyter Notebook, Sklearn, PyTorch, Keras, Tensorflow, Phidata
ML Fundamentals	GNN, NLP, CNN, Data Augmentation, Web Scraping, Data Wrangling
Relevant Coursework	Data Structures and Algorithms, OOPs, DBMS, Computer Networks, Operating System, ML

POSITIONS OF RESPONSIBILITY

President <i>Cybernauts, Computer Science Departmental Society of Deshbandhu College, Delhi University.</i>	Aug 2023 - Jan 2024
Managed a team of 20+ members and organized various events such as a seminar on "Aligning AI with Human Values" as well as annual society events.
